OUR VISION

- Develop & operationalize AI tools that transform complex data of EARTH & SPACE into valuable and actionable insights

- Create multi-domain awareness using an AI enhanced COP

- Provide expeditionary analytics using "edge" AI on drones and satellites

Clairvoyance^{TM} Software Platform

Gateway for imagery and product delivery
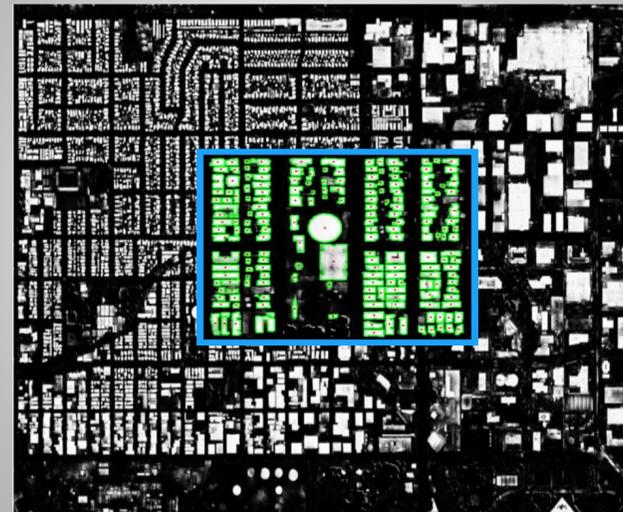

Clairvoyance Cloud Native DATA PLATFORM

- RAPID INGEST / METADATA TAGGING
- ORCHESTRATION
- DEEP LEARNING ALGORITHM WAREHOUSE
- ANALYTIC SERVICES

Geospatial Intelligence

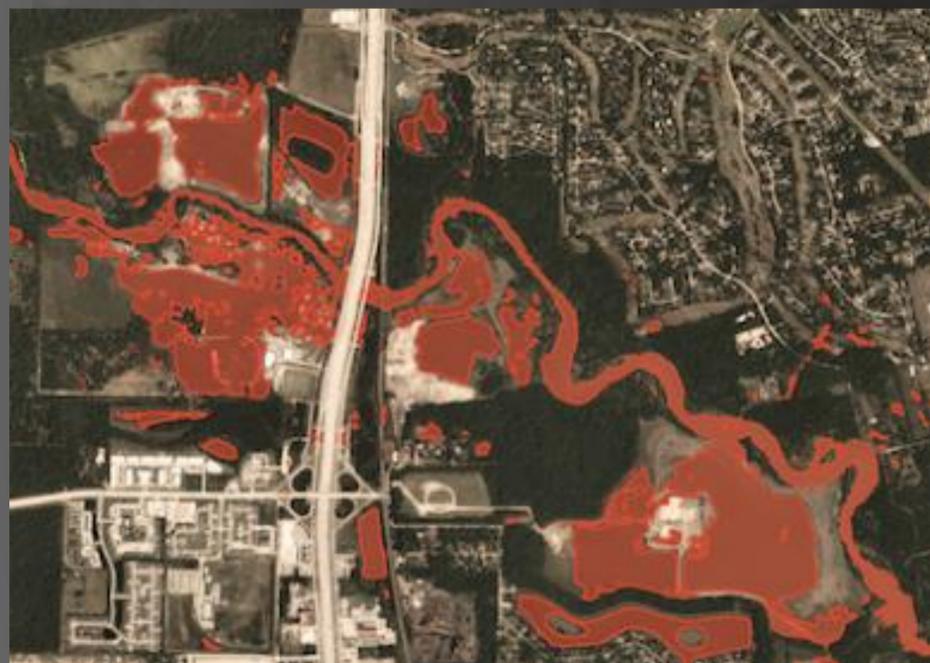

Embedded Intelligence

Space Situational Awareness

- Internal framework for semi-supervised and flexible deep neural networks
- Transforms imagery & other data sources into AI ingestible formats
- Cognitive analytics for scaled insights

Proven Technology

DISASTER RELIEF

INSURANCE

AEROSPACE / DEFENSE
